

GLOBALMAX – 1000

Feed Supplement for poultry

Product form

GLOBALMAX–1000 is based on double fat-coated calcium butyrate (raw material, category of salts of fatty acids) on two specific (functional) carriers. Fine powder and/or granulate (<1.0-1.5 mm). White-grey color. Free of butyric smell.

Uses

Feed premixes and supplements for farm animals (Laying hens, breeders, broilers and other poultry).

Advantages

- Organic calcium source.
- Stimulates differentiation and growth of gut wall cells (nutrient absorption).
- Regeneration, improvement of gut wall (energy source for villi). Positive effect on DWG, FCR, laying rate, egg mass, egg shell quality (broken eggs, hair cracks, dirty eggs) and hatchability.
- Supporting optimal balance of intestinal micro flora. (Coliforms, Lactobacilli, Streptococci). Positive effect in maintaining health. Control of Salmonella, Clostridium and Campylobacter.
- Easy to handle and mix. Odor free.

Recommended dose

Broiler:

Starter : 750 g/ton

Grower: 500 g/ton

Finisher: 500 g/ton

Layer:

1-44.week : 500 g/ton
