

GLOBALMAX – B231

Encapsulated Calcium Butyrate

Product form

Deodorized Ca-butyrate encapsulated in a matrix of vegetable oils. Butyrate : +/- 23 %. Calcium : +/- 5 %. Fine granular powder (< 1 mm). White color. Stable in mixes with free acids.

Uses Feed premixes and supplements for livestock feed: poultry, calves, piglets and growing pigs, rabbits.

Advantages

- Selective bacterial inhibition properties (butyrate anion).
- Stimulates differentiation and growth of intestinal wall (butyrate).
- Regeneration, improvement of intestinal wall (energy source for the villi).
- Organic source of calcium.(Ca-salt of edible VFA)
- Escapes dissociation in acid stomach.
- Free of unpleasant smell
- Easy in mixing and utilisation.

Recommended dose

Broiler:

Starter : 750 g/ton

Grower: 500 g/ton

Finisher: 500 g/ton

Layer:

1-44.week : 500 g/ton

44.week to end: 1000 g/ton

Breeder :

Rearing period: 500 g/ton

Breeding period: 1000 g/ton

Turkeys : 1000 – 750 – 500 g/ton

The action of Globamax B 231 is reinforced by a low Acid Binding Capacity. The calcium carried by the product can be taken into account in the feed formulation.

Packaging

25 kg plastic bags

Shelf life

24 months, under appropriate storage conditions (cool and dry place, packaging always well closed).

Handling

MSDS on request.
